User Stories — Little Swan Academy System

Format: As a [role], I want to [action] so that [benefit] | Business Rule | Acceptance Criteria

Module: Student Management

#	Role	User Story	Business Rule / AC
US-01	Staff	As a staff member, I want to create a new student profile so that I can manage her enrollment in the system	All fields required. DOB auto-calculates age. Enrollment date auto-set.
US-02	Staff	As a staff member, I want to edit a student's profile so that records stay accurate over time	Edit history logged with timestamp and user.
US-03	Admin	As an admin, I want to set a student's status to Inactive so that leavers are archived — not deleted	All historical data (attendance, payments, subscriptions) preserved.
US-04	Staff	As a staff member, I want to freeze a student so that I don't need to mark her absent every session during her break	Frozen student is hidden from all sessions. No attendance, no subscription deduction.
US-05	Admin	As an admin, I want to reactivate a frozen or inactive student so that she can return to classes without losing her history	Status reverts to Active. All previous data visible.
US-06	System	As the system, I want to auto-set status to Inactive after X consecutive absences so that rosters stay clean	X is configured by Super Admin in Settings. Alert shown before auto-hide.

Module: Classes & Halls

#	Role	User Story	Business Rule / AC
US-07	Admin	As an admin, I want to create a fixed class schedule so that sessions are auto-generated each week	Class includes: Name, Level, Default Coach, Hall (1 or 2), Day(s), Times, Capacity.
US-08	Admin	As an admin, I want to assign a class to Hall 1 or Hall 2 so that the system prevents scheduling conflicts	System blocks creation if hall is already occupied at the same time.
US-09	Admin	As an admin, I want to assign a substitute coach to a session so that the class is not cancelled	Session coach can differ from the class default coach.
US-10	Staff/Admin	As a staff member, I want to enroll a student in a class so that she appears in session rosters	A student can be enrolled in more than one class simultaneously.

Module: Attendance

#	Role	User Story	Business Rule / AC
US-11	Staff	As a staff member, I want to mark a student as Present so that her subscription is automatically decremented	Present → remaining_sessions – 1. Alert if remaining reaches 0.

#	Role	User Story	Business Rule / AC
US-1 2	Staff	As a staff member, I want to mark a student as Absent so that no session is deducted from her subscription	Absent = 0 deduction. Make-up becomes available within subscription period.
US-1 3	Staff	As a staff member, I want to assign a make-up session so that a student can attend a class to recover a missed one	Make-up must be within same subscription start and end dates. Links to original absent session.
US-1 4	Staff	As a staff member, I want to see available make-up slots so that I can inform the parent of options	System shows classes of same or adjacent level, same branch, with available capacity.
US-1 5	Coach	As a coach, I want to confirm student attendance in my class so that the admin can cross-validate my record with the staff entry	Both staff and coach entries visible to Admin. Discrepancies flagged.

Module: Subscriptions & Payments

#	Role	User Story	Business Rule / AC
US-1 6	System	As the system, I want to display 'Payment Required' next to a student's name when her sessions are exhausted so that the staff knows to collect fees	Triggered when remaining_sessions = 0.
US-1 7	Staff	As a staff member, I want to record a full payment so that a new 4-session subscription cycle is automatically created	Payment → new Subscription record with start_date = today.
US-1 8	Staff	As a staff member, I want to record a partial payment so that the outstanding balance is tracked	remaining_balance = amount_due – amount_paid. Displayed on student profile.
US-1 9	Staff	As a staff member, I want to record different payment types (subscription, leotard, event, private, exam) so that all revenue is captured accurately	Each transaction type stored separately for reporting.
US-2 0	Admin	As an admin, I want to view total daily revenue so that I can monitor financial performance	Auto-calculated from all Payments for the day, minus Expenses = Net Revenue.

Module: Coaches & Payroll

#	Role	User Story	Business Rule / AC
US-2 1	Coach	As a coach, I want to check in to a session so that my working hours start being tracked	Check-in timestamp auto-recorded.
US-2 2	Coach	As a coach, I want to check out from a session so that the system calculates my hours for that session	hours_worked = check_out_time – check_in_time.
US-2 3	Admin	As an admin, I want the monthly payroll to be auto-calculated for each coach so that I can pay them accurately without manual effort	Monthly total = sum of all session hours × hourly_rate. Private session hours included.

#	Role	User Story	Business Rule / AC
US-2 4	Admin	As an admin, I want two coaches to both check in to the same session so that partial-session substitution is supported	Multiple Coach_Attendance records per session allowed. Hours calculated separately.

Module: Transfers

#	Role	User Story	Business Rule / AC
US-2 5	Staff	As a staff member, I want to submit a class transfer request so that a student can move to a better-fitting group	Request status: Pending. Admin notified. Student stays in original class until approved.
US-2 6	Admin	As an admin, I want to approve or reject a transfer request so that I control class composition and capacity	Approved → student moved from old class to new class. Transfer record logged.

Module: Exams & Level Promotion

#	Role	User Story	Business Rule / AC
US-2 7	Admin	As an admin, I want to create an exam so that I can assess students across levels	Exam has: Name, Date, Fee, Target Level. Fee auto-logged as payment on enrollment.
US-2 8	Staff/Admin	As a staff member, I want to enter exam results so that students are automatically promoted to the next level on passing	Pass → student's level_id updates to next level in sequence. Fail → no change.
US-2 9	Super Admin	As a super admin, I want to configure the level promotion order so that the system knows which level comes after which	Levels have order numbers. Promotion always moves to (current_order + 1).

Module: Inventory — Leotards

#	Role	User Story	Business Rule / AC
US-3 0	Staff	As a staff member, I want to record a leotard sale from ready stock so that inventory is automatically decremented	stock_qty – 1 on sale. Alert if stock reaches 0.
US-3 1	Staff	As a staff member, I want to create a made-to-order request so that I can track custom leotards for specific students	Order record: student, size, cost, status (Pending → In Production → Done → Delivered).

Module: Events & Private Sessions

#	Role	User Story	Business Rule / AC
US-3 2	Admin	As an admin, I want to create an event (recital, TV show, workshop) so that students can be enrolled and fees tracked	Event type, date, venue, and price recorded. Enrollment open to all active students.

#	Role	User Story	Business Rule / AC
US-3 3	Staff	As a staff member, I want to enroll a student in an event and record her payment so that financial tracking is complete	Payment auto-logged. Partial payments tracked.
US-3 4	Staff	As a staff member, I want to record a private session with its fee so that revenue and coach payroll are both updated	Private session → Payment transaction + Coach_Attendance hours.

Module: Freeze

#	Role	User Story	Business Rule / AC
US-3 5	Staff	As a staff member, I want to freeze a student who is temporarily away so that I stop seeing her in session lists without losing her data	Student status = frozen. Hidden from all sessions. Subscription not extended.
US-3 6	Admin/Staff	As an admin, I want to reactivate a frozen student so that she seamlessly returns to the system as if she never left	Status → active. All prior subscriptions, payments, and attendance history visible.

Module: Coach Location & Staff Tracking

#	Role	User Story	Business Rule / AC
US-4 1	Coach	As a coach, I want to check in using my phone so that the system verifies I am physically at the academy	System reads GPS. Calculates distance from academy. Logs valid or invalid. Does NOT block coach.
US-4 2	Coach	As a coach, I want to check out from a session so that my hours are calculated with location verification	Same GPS logic as check-in. hours_worked auto-calculated.
US-4 3	Admin	As an admin, I want to see flagged check-ins so that I can follow up on coaches who checked in remotely	Flagged entries highlighted in Coach Attendance report. location_status = invalid.
US-4 4	Super Admin	As a super admin, I want to set the academy GPS coordinates and allowed radius so that location validation uses the correct reference point	latitude, longitude, allowed_radius stored in System Settings. Radius default = 100m.
US-4 5	System	As the system, I want to record every staff login and logout with timestamp and GPS so that management has a full attendance log	Auto-triggered on login and logout. Stores login_time, logout_time, lat, lng, location_status.
US-4 6	Admin	As an admin, I want to view a daily staff attendance log so that I know who arrived on time and who logged in from outside the academy	Shows all staff logins for the day with time and location status. Late arrivals highlighted.

Module: Settings & Admin

#	Role	User Story	Business Rule / AC
US-37	Super Admin	As a super admin, I want to configure subscription plan details (sessions count, price) so that they apply system-wide	Changes apply to all NEW subscriptions. Existing ones unaffected.
US-38	Super Admin	As a super admin, I want to set the maximum freeze days per month so that the freeze feature is not abused	System blocks freeze creation if the limit is already reached for that month.
US-39	Super Admin	As a super admin, I want to set the absence auto-hide threshold so that students with long absences are automatically deactivated	Configurable number. System checks on each attendance record.
US-40	Super Admin	As a super admin, I want to manage staff and coach accounts so that I control who can access the system	Create, edit, and deactivate accounts. Coach accounts have login toggle.
